

PHOENIX

Informazioni tecniche

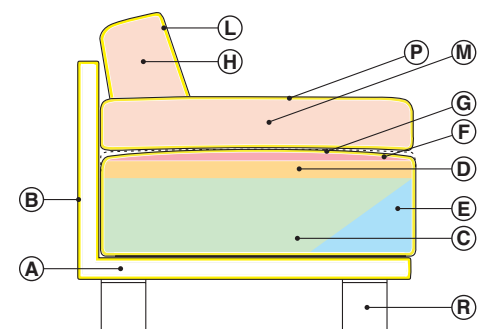

STRUTTURA: La struttura in legno è ricoperta da resinato accoppiato con maglina.
IMBOTTITURA: I cuscini di seduta e gli schienali sono in poliuretano espanso sagomato ed indeformabile a quote differenziate; il tutto è ricoperto in termolegato con cotone. Gli elementi confezionati in tessuto sono completamente e facilmente sfoderabili. Possibilità di confezionare i divani in pelle. Di serie piedi lineari in alluminio lucido, su richiesta piedi classici in alluminio lucido.

STRUCTURE: Wood structure coated with resin-treated coupled fabric.
PADDING: Seat and back cushions in shaped non-deformable expanded polyurethane with differentiated density. Everything is upholstered in thermal-bonded cotton fabric. All parts upholstered in fabric can be easily and completely removed. Sofas can also be upholstered in leather. Standard polished aluminium linear feet, with classic polished aluminium feet available on request.

STRUCTURE: La structure en bois est recouverte de résinate couplé avec jersey.
REMBOURRAGE: Les coussins de l'assise et les dossiers sont en polyuréthane expansé galbé et indéformable à cotes différenciées; le tout est thermiquement fixé avec coton. Les éléments confectionnés en tissu sont entièrement et facilement déhoussables. Possibilité de confectionner les canapés en cuir. De série pieds linéaires en aluminium brillant, sur demande pieds classiques en aluminium brillant

GESTELL: Das Gestell ist aus Holz, Polyesterfaser und Polyamidvlies bedeckt.
POLSTERUNG: Die Sitzkissen und Rückenpolster sind aus geformten und formbeständigen Polyurethanschaumstoff in unterschiedlicher Stärke; das Ganze ist mit einem thermofixierten Bezug mit Baumwolle verkleidet. Die Stoffbezüge der Elemente sind vollkommen und leicht abziehbar. Die Sofas können auch mit Leder bezogen werden. Die geraden Füße in glänzendem Aluminium sind serienmäßig, auf Anfrage sind auch klassische Füße in glänzendem Aluminium lieferbar.
